Wir bieten Produkte an, die Ihnen helfen, mit Garantie auf Präzision zu kaufen, zu bewerten und zu verkaufen. Unsere breite Palette an Testsäuren ist einfach zu verwenden. Zu unseren Produkten gehören der Binocular Headband Magnifier, professionell, Ref: BINOCMAG-S4-2.5X-370MM, Licht für Chirurgen, Binocular Magnifier, Ref: BINOCMAG-LIGHT und der Binocular Headband Magnifier, der an Brillen klippt, Ref: BINOCMAG-S2(CLIP)2.5X-34CM. Unser Ziel ist es, allen Beteiligten im Gold-, Silber- oder Platinhandel zu helfen, gefälschte und counterfeit-Barren, Münzen und Schmuck zu erkennen. Mit unseren elektronischen Edelmetalltestern, Goldtestmaschinen und einer breiten Auswahl an Gold-, Silber- und Platin-Säuretestkits können Sie selbst überprüfen, ob Ihr Gold echt oder gefälscht ist. Unsere Mission ist es, allen - auch privaten Anlegern ohne Erfahrung - zu ermöglichen, Edelmetalle mit unseren Goldtestern zu verifizieren. Wir bieten eine Vielzahl von Dienstleistungen an, darunter Schmelzdienste, Bewertung und den Verkauf von Edelmetallen. Unsere Gebühren sind transparent, wir berechnen 0.25 \$ pro Unze Bearbeitungsgebühr und unsere Schmelzdienste werden in der Regel mit 5 % des Wertes berechnet. Wir bieten auch eine umfassende Lösung an, die den Transport, die logistische Dokumentenvorbereitung, die effiziente Verarbeitung und den Kauf oder die Übertragung von Edelmetallabfällen umfasst. Wir sind bestrebt, eine offene Kommunikation aufrechtzuerhalten und stellen sicher, dass Sie während des gesamten Recyclingprozesses die Kontrolle über Ihr Material behalten. Wenn Sie unsere Raffinerie- und Edelmetallkauf-Dienstleistungen besprechen möchten, stehen wir Ihnen gerne zur Verfügung. We specialize in providing top-notch chemical and electronic test equipment to pawnbrokers, precious metal traders, and jewellers across the UK. To ensure accuracy, every tester we sell undergoes rigorous testing and calibration before shipment. For orders exceeding £100.00, excluding acids, we offer complimentary UK shipping. Our commitment to customer satisfaction has earned us a Feefo Gold Trusted Service Award, as evidenced by reviews from verified customers. Our products empower you to make informed decisions when buying, valuing, and selling items at auctions, fairs, in-store, or online. As experts in our field, we supply an array of testers, including the KEE ELECTRONIC GOLD TESTER, Exporior by Gemtrue, and Presidium gem testers. Additionally, we offer a range of loupes, UV torches, and digital scales from renowned brands like Zeiss and Ohaus. Our clients include esteemed jewellers, auction houses, pawnbrokers, and even the Birmingham Assay office. We also cater to part-time antiques traders, collectors, and workshops. For those seeking guidance on testing and trading precious metals, The Gold & Silver Buyer's Handbook is an indispensable resource. As a leading manufacturer and importer of test equipment, Quicktest provides an extensive selection of products, including chemical testers for gold and silver, electronic testers for diamonds and gemstones, and a vast array of magnifiers. Looking for testers and chemicals for gold silver platinum white gold palladium steel and other metals have range of options including quicktest-3 tester troytest 5-bottle tester troytest 4-bottle tester testing acid refills anti-acid mat magnet tester gold testing needles scraper chart book of test papers replacement pen-probe for kee gold tester also glass bottles safety goggles precision scale and other tools and accessories. You will never have to worry about losing money on fake bills again thanks to these super-efficient counterfeit detection pens that are simple to use. Just swipe and see if it's dark brown or black - that means it's a forged bill! Business owners and cash handlers love them. But that's not all, these pens also come with a rare earth neodymium magnet test that can help you figure out if the metal is real or not. It's perfect for testing gold, silver, or platinum without damaging them. Just be careful because it's super strong! This bundle has everything you need to test your precious metals, and it comes with a fancy storage box so you can take it anywhere.
