You can find your device's Android version number, security update level, and Google Play system level in your Settings app. You'll get notifications when updates are available for your device. You can also check for updates. Check which Android version your device is Open your device's Settings app. Tap About phone or About tablet Android version. Find your "Android version," "Android security update," and "Build number." Get the latest Android updates available for your device When you get a notification, open it and tap the update action. If you cleared your notification or your device has been offline: Open your device's Settings app. Tap System Software update. You'll find your update status. Follow the on-screen instructions. Tip: If you have a Pixel device, it may say "Software updates" or "System update." Fix an updates issue Important: It's normal for your Android device to drain more battery after a software update, as it works hard to download, optimize, and install the update. Older devices can't always run newer Android versions. Not enough space available An update didn't download If an update starts downloading and doesn't finish, your device will automatically try again over the next few days. When it tries again, you'll get a notification. Open the notification and tap the update action. Update Android version for security updates To get the latest security update available for your device, make sure that you have the latest Android version available for your device. When updates become active Pixel phones and Pixel Tablet install downloaded Android updates in the background. The installed updates become active the next time that you restart your device. Learn how to restart your device. Other Android devices Many Android phones and tablets automatically restart while they install downloaded Android updates. The updates become active when installation finishes. Get security updates & Google Play system updates Most system updates and security patches happen automatically. To check if an update is available: Open your device's Settings app. Tap Security & privacy System & updates. For security updates, tap Security update. For Google Play system updates, tap Google Play system update. Follow any steps on the screen. Tip: If you don't find an available update, you can try to restart your phone. When you'll get Android updates Related resources Post to the help community Get answers from community members Enviar comentarios sobre... Envoyer des commentaires concernant... Apps are designed for use with supported Android and Chromebook devices and can't be used on Windows or Mac computers. On your device, open the Google Play Store or go to play.google.com on a web browser. Search or browse for content. Select an item. Select Install or the item's price. Follow the on-screen instructions to complete the transaction and get the content. If you made a purchase before: Select your payment method with the Down arrow . If it's your first purchase: Your payment method will be added to your Google Account. Tip: To change your display language on Google Play, change the language in your Google Account settings. Find apps for your watch, tablet, TV, car, or other device You can use Play store filters to search or browse apps and games that are compatible with each of your devices. On your phone: Open the Google Play app . At the top, search for an app or content. In the dropdown menu, choose a device associated with your account. On your computer: Go to play.google.com. At the top right, click the magnifying glass . Then, search for an app or content. Select the device dropdown and choose a device associated with your account. After you follow these steps, in your search results, you'll find the apps that are compatible with your device. Tip: To use the search filter, you must be signed in to an account associated with multiple Android devices. Apps and digital content are connected to your Google Account, not just your device. You don't have to buy them again if you get a new device. You can use them on multiple devices. Learn how to install apps and content from your phone or computer to other devices. Content can't be transferred between accounts If you own multiple accounts, you can't transfer content between accounts on Google Play. If you have multiple accounts on your device, before you complete your purchase, make sure you're signed in to the account you want to use. If you purchased an app on the wrong account, contact the app developer. They may give you a refund for your purchase. Post to the help community Get answers from community members
